Professional Summary

Dr. Imam Addisu is a Medical Doctor and Quality Improvement Coordinator at Besheno Primary Hospital, Ethiopia, with expertise in advancing patient safety and healthcare quality. Skilled in data collection, analysis, and presentation, he drives evidence-based decision-making and measurable improvements in service delivery. He has pioneered women's engagement through the Health Literacy Unit, empowering communities and promoting newborn and child safety. He serves as focal for the hospital's Antimicrobial Stewardship Program, leading initiatives to promote rational antibiotic use and combat antimicrobial resistance. Deeply committed to humanitarian values, he strives to deliver equitable and compassionate healthcare in resource-limited settings.
